

EXPERIENCE

- **WordPress** London, UK
WordPress Developer & Consultant *February 2013 - Present*
 - **WordPress Website Development:** Working with growth-focused small businesses and creative agencies. Leveraging industry best practises, tooling, coding standards, & an in-depth knowledge of WordPress core, the REST API, & the plugin ecosystem to deliver high-performance, secure, custom WordPress websites.
 - **eCommerce Subscription Service Technical Partner:** Working with high-growth small businesses as their trusted technical partner to build, launch, & manage their direct-to-consumer subscription platforms. Working alongside design & marketing teams to develop & scale highly customised, performant, & converting eCommerce stores using WooCommerce.
 - **WordPress Consulting Services:** Supporting SME & agency clients as a freelance technology consultant to advise on & provide technical solutions for website projects. **Services include:** Planning & Development Advice, Website Performance Audits (Performance, Accessibility, SEO), Code Reviews, Integration with 3rd-Party Services, Website & Hosting Migrations
 - **WordPress Support & Maintenance Care Plans:** Providing monthly maintenance & management services for clients. **Services include:** Full Website Management, WordPress, Plugin, & Theme Updates, Secure Off-Site Backups, Monthly Status & Analytics Reports, Security Scans & Incident Handling, Website Health Checks & Fixes (Performance, Accessibility, SEO).
- **Cigital** London, UK
Security Consultant *Aug 2011 - Mar 2013*
 - **Responsibilities:** Working with clients to apply secure software methodologies. Secure code review, software/application penetration testing, architecture security analysis, threat modelling, security audits.
- **Vigilante Bespoke** London, UK
Security Engineer *May 2010 - Apr 2011*
 - **Responsibilities:** Building and supporting a tailored IT security service to protect the intellectual property of high net worth individuals.
- **NCC Group** Oxford, UK
Penetration Tester & Security Consultant *Jul 2008 - Apr 2010*
 - **Responsibilities:** Performing security audits for web applications, network, physical & WiFi infrastructure.

PROJECTS

- **Freelance Toolkit:** Micro-SaaS (Software-as-a-Service) solo project. Freelance Toolkit provides the tools a B2B freelancer needs to manage their business & clients, without the fluff & huge price tag. **Features include:** Prospecting & Sales Pipeline, Client CRM, Time Tracking, Project Management & Support Helpdesk. **Built with:** Laravel, React.js, & TypeScript.
- **WPDiff:** Micro-SaaS solo project. Monitor your WordPress website for changes. WPDiff automatically detects changes, sends you alerts, and helps keep your WordPress website up-to-date and performant – directly from your WordPress dashboard. **Built with:** WordPress, OpenCV, C++, React.js, Playwright, Selenium Grid, Node.js & TypeScript.
